

CZ0029 UG EN V2302

## Exo-1,3-β-Galactanase 43A, Clostridium thermocellum

# CtGan43A (GH43)

Catalogue number Presentation

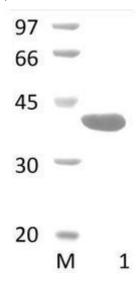

CZ00291 2 mg CZ00292 3 x 2 mg

#### **Description**

Exo-1,3-β-Galactanase 43A (*Ct*Gan43A), assigned the E.C. number 3.2.1.145, is a derivative of *Clostridium thermocellum*. It is an exo-α-arabinofuranosidase. The recombinant *Ct*Gan43A, purified from *Escherichia coli*, is a single-domain Glycoside Hydrolase family 43 (GH43) enzyme (see more details at <a href="www.cazy.org">www.cazy.org</a>). The protein is supplied in a solution containing 35 mM NaHepes buffer (pH 7.5), 750 mM NaCl, 200 mM Imidazole, 3.5 mM CaCl<sub>2</sub>, and 25% (v/v) glycerol, at a concentration of 2 mg/mL. Bulk quantities of this product can be made available upon request. To place an order, simply visit our website. We offer fast and secure shipping worldwide.

#### **Electrophoretic Purity**

The molecular integrity and purity of CtGan43A (GH43) were evaluated using sodium dodecyl sulfate-polyacrylamide gel electrophoresis (SDS-PAGE), followed by BlueSafe staining (MB15201) (Figure 1).

**Figure 1**. SDS-PAGE analysis of *Ct*Gan43A (GH43) was conducted in (Lane 1), employing a 14% polyacrylamide gel. The enzyme exhibits a band corresponding to a molecular weight of approximately 37,85 kDa. Lane M contains a Protein Marker for reference.

#### Storage temperature

The protein should be stored at -30°C to -15°C in a constant temperature freezer. The protein will remain stable till the expiry date if stored as specified.

#### **Substrate specificity**

CtGan43A (GH43) hydrolyses 1,3-β-galactans in an exo-acting manner.

#### Temperature and pH optima

The enzyme exhibits optimal activity within a pH range of 3.0-10.0 and at a temperature of 50°C. Maximal enzymatic activity is achieved at pH 6 and a consistent temperature of 50°C.

### **Specific activity**

CtGan43A (GH43) specific activity is 20 U/mg, using  $\beta$ -1,3-galactan as substrate.

#### **Enzyme activity**

Substrate specificity and kinetic properties of CtGan43A (GH43) are detailed in the referenced publication provided below. To perform enzyme assays and determine specific activity values, adhere to the methodology outlined in the cited paper(s).

#### **Customer Support**

Our dedicated customer support team is always ready to assist you with any questions or technical issues you may have. Reach us via email at info@nzytech.com.

#### **Quality control assay**

Protein purity is determined to be ≥90%, as assessed by SDS-PAGE and subsequent BlueSafe staining (MB15201).
