

CZ0428 UG EN V2302

# β-Acetylglucosaminidase 73A, Lactococcus lactis

# LIAcp73A (GH73)

Catalogue number Presentation

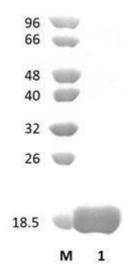

CZ04281 1 mg CZ04282 3 x 1 mg

# **Description**

β-Acetylglucosaminidase 73A (L/Acp73A), assigned the E.C. number 3.2.1.-, is a derivative of Lactococcus lactis. It is a peptidoglycan hydrolase with endo-β-N-acetylglucosaminidase specificity. The recombinant L/Acp73A, purified from Escherichia Coli, is a single-domain Glycoside Hydrolase family 73 (GH73) enzyme (see more details at E0 mW.cazy.org). The protein is supplied in a solution containing 35 mM NaHepes buffer (pH 7.5), 750 mM NaCl, 200 mM Imidazole, 3.5 mM CaClE2, and 25% (E0 glycerol, at a concentration of 1 mg/mL. Bulk quantities of this product can be made available upon request. To place an order, simply visit our website. We offer fast and secure shipping worldwide.

#### **Electrophoretic Purity**

The molecular integrity and purity of *LI*Acp73A (GH73) were evaluated using sodium dodecyl sulfate-polyacrylamide gel electrophoresis (SDS-PAGE), followed by BlueSafe staining (MB15201) (Figure 1).

**Figure 1**. SDS-PAGE analysis of *LI*Acp73A (GH73) was conducted in (Lane 1), employing a 14% polyacrylamide gel. The enzyme exhibits a band corresponding to a molecular weight of approximately 19,44 kDa. Lane M contains a Protein Marker for reference.

#### **Storage temperature**

The protein should be stored at -30°C to -15°C in a constant temperature freezer. The protein will remain stable till the expiry date if stored as specified.

#### **Substrate specificity**

LIAcp73A (GH73) hydrolyses peptidoglycan.

# Temperature and pH optima

The pH optimum for enzymatic activity is 6.8 while temperature optimum is 35  $^{\circ}\text{C}.$ 

# **Enzyme activity**

The substrate specificity and kinetic properties of *LI*Acp73A (GH73) are detailed in the referenced publication provided below. To perform enzyme assays and determine specific activity values, adhere to the methodology outlined in the cited paper(s).

#### **Customer Support**

Our dedicated customer support team is always ready to assist you with any questions or technical issues you may have. Reach us via email at info@nzytech.com.

# **Quality control assay**

Protein purity is determined to be ≥90%, as assessed by SDS-PAGE and subsequent BlueSafe staining (MB15201).

For life science research only. Not for use in diagnostic procedures.
