

## Pectin lyase 1A, *Pseudomonas marginalis*

### *PmPly1A* (PL1)

Catalogue number	Presentation
CZ05281	0.5 mg
CZ05282	3 x 0.5 mg

#### Description

Pectin lyase 1A (*PmPly1A*), assigned the E.C. number 4.2.2.10, is a derivative of *Pseudomonas marginalis*. It is an enzyme that acts on 1,4- $\alpha$ -D-galacturonan methyl ester. The recombinant *PmPly1A*, purified from *Escherichia coli*, is a single-domain Pectate Lyase family 1 (PL1) enzyme (see more details at [www.cazy.org](http://www.cazy.org)). The protein is supplied in a solution containing 35 mM NaHepes buffer (pH 7.5), 750 mM NaCl, 200 mM Imidazole, 3.5 mM CaCl<sub>2</sub>, and 25% (v/v) glycerol, at a concentration of 0.5 mg/mL. Bulk quantities of this product can be made available upon request. To place an order, simply visit our website. We offer fast and secure shipping worldwide.

#### Electrophoretic Purity

The molecular integrity and purity of *PmPly1A* (PL1) were evaluated using sodium dodecyl sulfate-polyacrylamide gel electrophoresis (SDS-PAGE), followed by BlueSafe staining (MB15201) (Figure 1).

**Figure 1.** SDS-PAGE analysis of *PmPly1A* (PL1) was conducted in (Lane 1), employing a 14% polyacrylamide gel. The enzyme exhibits a band corresponding to a molecular weight of approximately 38,72 kDa. Lane M contains a Protein Marker for reference.

#### Storage temperature

The protein should be stored at -30°C to -15°C in a constant temperature freezer. The protein will remain stable till the expiry date if stored as specified.

#### Substrate specificity

*PmPly1A* (PL1) participates in the eliminative cleavage of pectins.

#### Temperature and pH optima

The enzyme is optimally active in the pH 6.6 and temperature range 30-37°C, with maximal activity at pH 6.6 and temperature 30°C.

## Enzyme activity

The substrate specificity and kinetic properties of *PmPly1A* (PL1) are detailed in the referenced publication provided below. To perform enzyme assays and determine specific activity values, adhere to the methodology outlined in the cited paper(s).

## Customer Support

Our dedicated customer support team is always ready to assist you with any questions or technical issues you may have. Reach us via email at [info@nzytech.com](mailto:info@nzytech.com).

## Quality control assay

Protein purity is determined to be  $\geq 90\%$ , as assessed by SDS-PAGE and subsequent BlueSafe staining (MB15201).

For life science research only. Not for use in diagnostic procedures.
