# Carbohydrate Binding Module 28A, Clostridium josui

# (CBM28)

Catalogue number Presentation

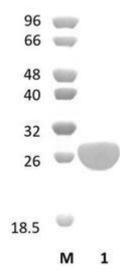

CZ08761 1 mg CZ08762 3 x 1 mg

#### **Description**

Carbohydrate Binding Module 28A (CBM28) is a Carbohydrate Binding Protein originating from *Clostridium josui*. The recombinant CBM28, purified from *Escherichia coli*, is a single-domain protein belonging to the Carbohydrate Binding Module family 28 (CBM28, see more details at <a href="https://www.cazy.org">www.cazy.org</a>). The protein is supplied in a solution containing 35 mM NaHepes buffer (pH 7.5), 750 mM NaCl, 200 mM Imidazole, 3.5 mM CaCl<sub>2</sub>, and 25% (v/v) glycerol, at a concentration of 1 mg/mL. Bulk quantities of this product can be made available upon request. To place an order, simply visit our website. We offer fast and secure shipping worldwide.

#### **Electrophoretic Purity**

The molecular integrity and purity of CBM28 were evaluated using sodium dodecyl sulfate-polyacrylamide gel electrophoresis (SDS-PAGE), followed by BlueSafe staining (MB15201) (Figure 1).

**Figure 1**. SDS-PAGE analysis of CBM28 was conducted in (Lane 1), employing a 14% polyacrylamide gel. The enzyme exhibits a band corresponding to a molecular weight of approximately 23,20 kDa. Lane M contains a Protein Marker for reference.

#### **Storage temperature**

The protein should be stored at -30°C to -15°C in a constant temperature freezer. The protein will remain stable till the expiry date if stored as specified.

#### **Ligand specificity**

CBM28 binds to cellooligosaccharide ligands. The biochemical properties of CBM28 are detailed in the referenced publication(s) provided below.

## **Customer Support**

Our dedicated customer support team is always ready to assist you with any questions or technical issues you may have. Reach us via email at info@nzytech.com.

## **Quality control assay**

Protein purity is determined to be ≥90%, as assessed by SDS-PAGE and subsequent BlueSafe staining (MB15201).

For life science research only. Not for use in diagnostic procedures.
