

## Carbohydrate Binding Module 32B, *Clostridium perfringens* (CBM32-CBM32)

Catalogue number	Presentation
CZ10171	0.5 mg
CZ10172	3 x 0.5 mg

### Description

Carbohydrate Binding Module 32B (CBM32-CBM32) is a Carbohydrate Binding Protein originating from *Clostridium perfringens*. The recombinant CBM32-CBM32, purified from *Escherichia coli*, is a modular protein belonging to the Carbohydrate Binding Module family 32 (CBM32, see more details at [www.cazy.org](http://www.cazy.org)) with two CBM32 module repeats. The protein is supplied in a solution containing 35 mM NaHepes buffer (pH 7.5), 750 mM NaCl, 200 mM Imidazole, 3.5 mM CaCl<sub>2</sub>, and 25% (v/v) glycerol, at a concentration of 0.5 mg/mL. Bulk quantities of this product can be made available upon request. To place an order, simply visit our website. We offer fast and secure shipping worldwide.

### Electrophoretic Purity

The molecular integrity and purity of CBM32-CBM32 were evaluated using sodium dodecyl sulfate-polyacrylamide gel electrophoresis (SDS-PAGE), followed by BlueSafe staining (MB15201) (Figure 1).

**Figure 1.** SDS-PAGE analysis of CBM32-CBM32 was conducted in (Lane 1), employing a 14% polyacrylamide gel. The enzyme exhibits a band corresponding to a molecular weight of approximately 34,72 kDa. Lane M contains a Protein Marker for reference.

### Storage temperature

The protein should be stored at -30°C to -15°C in a constant temperature freezer. The protein will remain stable till the expiry date if stored as specified.

### Ligand specificity

CBM32-CBM32 binds to galactose residues in oligosaccharides. The biochemical properties of CBM32-CBM32 are detailed in the referenced publication(s) provided below.

## Customer Support

Our dedicated customer support team is always ready to assist you with any questions or technical issues you may have. Reach us via email at [info@nzytech.com](mailto:info@nzytech.com).

## Quality control assay

Protein purity is determined to be  $\geq 90\%$ , as assessed by SDS-PAGE and subsequent BlueSafe staining (MB15201).

For life science research only. Not for use in diagnostic procedures.
