

NZYTech – Genes and Enzymes

Junior Scientist (BSc/MSc) for R&D Department (M/F)

About NZYTech

NZYTech genes & enzymes is a privately owned fast growing international company which discovers, produces, and supplies a wide range of solutions in the fields of Molecular Biology, Molecular Diagnostics and Recombinant Protein Production. NZYTech develops highly innovative research in molecular life sciences and molecular diagnostics and establishes collaborations with top scientists and institutes worldwide. NZYTech headquarters are in Lisbon, one of the most exciting destinations in Europe while being at the heart of a vibrant and rapidly expanding cluster of academic and private research organisations.

Description:

NZYTech is searching for a Junior Scientist (BSc/MSc) to join its R&D department. We are looking for a candidate to develop novel applications in molecular biology/diagnostics, in particular those related with PCR and qPCR technology. We are looking for candidates with a solid academic background, an innovative mind, a passion for science and a charismatic team spirit.

Who you are:

Your readiness for this NZYTech Junior R&D position is clear from a combination of:
Academic background in Biology/Biochemistry/Biotechnology or related.
Strong analytical and problem-solving skills.
Capacity to be a team player with a collaborative and interdisciplinary mindset.
Work in a fast paced and solutions-oriented environment.
Published impactful research in life sciences.

This position comes with full salary and a competitive compensation plus benefits package. We offer a unique opportunity to join a highly active and dynamic R&D team in a stimulating, highly collaborative and exciting research environment. You will be part of an ambitious group with enthusiastic peers that will coach and mentor your initial activities. NZYTech is a workplace that values diversity and promotes an inclusive environment.

This position comes with full salary and a competitive compensation plus benefits package. We offer a unique opportunity to join a highly active and dynamic R&D team in a stimulating, highly collaborative and exciting research environment. You will be part of an ambitious group with enthusiastic peers that will coach and mentor your initial activities. NZYTech is a workplace that values diversity and promotes an inclusive environment.

How to apply:

Applications must be submitted by email to applications@nzytech.com, with the subject “Junior R&D Scientist_Out2022”, until October the 20th and include:

- Your full CV (BSc/MSc classifications)
- A cover letter with no more than 1 page where you elaborate about your research interests and research goals and how do they fit in NZYTech vision
- Letters of recommendation, as well as contact details, of at least 1 referee

Candidates selected to an interview will have to present a short presentation (10 minutes) of a scientific theme of their choice. For more information contact Carlos MGA Fontes (carlos.fontes@nzytech.com), NZYTech scientific director and chair of the search committee.
